

博士後期課程Ⅱ期

令和5年度 武蔵野大学大学院

環境学研究科 環境システム専攻 博士後期課程 入学試験問題 (1月8日)

[英語]

問題 1 次の英文を和訳しなさい。

Implementing policies from the perspective of the SDGs

Future Tokyo: Tokyo's Long-Term Strategy will tackle the challenges facing the Tokyo government in an integrated manner from the perspectives of economy, society, and the environment, which are the three dimensions of sustainable development. One cornerstone is the Tokyo Bay eSG Project, which will become a model for a sustainable city in the Tokyo Bay area, which is full of potential. This project aims to create a sustainable city that fuses nature and convenience through efforts such as making full use of cutting-edge technologies while also maintaining harmony with the environment. The strategies of Future Tokyo are also centered on drawing out the potentials of people, who drive Tokyo's development, and allowing them to shine. Along with fully investing in our children who hold the future in their hands, we will further enhance safety nets that will put a stop to the "cycle of poverty" and prevent new disparities from emerging.

SDGs initiatives: From Tokyo to the world Future Tokyo presents an action plan outlining the concrete schedule for projects up to fiscal 2023. By proceeding with projects according to this plan, we will raise Tokyo's sustainability. In the advancement of measures, we will thoroughly implement the PDCA (Plan-DoCheck-Action) cycle to secure their effectiveness. These efforts will lead to enhancement of the QOL (quality of life) of our citizens and realization of a sustainable Tokyo. Tokyo will not only take the initiative in pursuing the SDGs, but will support the voluntary actions and collaborative efforts of municipalities, the Tokyo citizens, companies, universities and other various parties in achieving the SDGs. By expanding such circles of efforts from Tokyo to the rest of Japan and beyond to the world, the Tokyo Metropolitan Government will contribute to the achievement of the SDGs.

単語 ; Tokyo Bay eSG Project; 東京ベイ eSG プロジェクト

出典 ; Tokyo Sustainability Action

問題 2 あなたの修士論文の研究概要について、300語程度の英語で説明せよ。
